

To the Campus Community:

In accordance with [CA Senate Bill 98 \(2025\)](#) and the ongoing implementation of [CA Assembly Bill 21 \(2017\)](#), UC Irvine is sharing information about policies and procedures related to possible immigration enforcement activity on campus. These state laws require the California State University and California Community Colleges—and request the University of California—to maintain policies and procedures that support a safe and inclusive campus environment for all community members, regardless of immigration status.

If immigration enforcement activity is confirmed on campus, the university will notify the campus community, just as we would in the case of other significant law enforcement activity on campus. ZotMail will be the primary method of communication. In addition, [zotALERT](#) may also be used to provide timely, campuswide notification, particularly when circumstances may cause disruption or concern within the community, even if there is no immediate or active threat.

It is important to note that federal immigration agencies may be present on campus for non-enforcement purposes, such as recruitment or routine visa-related activities. *The procedures below apply only to immigration enforcement actions.*

For broader context of UC's policies and procedures relating to undocumented members of our community, please review:

For the most current guidance, visit the [Immigration Guidance webpage](#). A [resource guide for faculty and staff](#) is also available on the provost's website.

The information below is being shared to provide clarity, support awareness, and promote preparedness in the event of immigration enforcement activity on campus.
